Display Advertising

Overview of the Display Ads industry Business operations in the industry

Task 3

How are online display ads bought and sold?

Online Display Advertising Landscape

Historical Note: Banners

Banners seem to be the oldest standard format in use.

The first "banner ad" was launched by AT&T on Oct 27, 1994 on Hotwired, the web version of Wired.

Part of the <u>AT&T "you will" ad</u> campaign

The AT&T You Will Campaign

Each ad presented a futuristic scenario beginning with "Have you ever..." and ending with "...you will. And the company that will bring it to you: AT&T."

At that time, there were about 30 million people on the Internet.

The ad predicted a number of innovations including GPS navigation, Wi-Fi, tablet computing, smartwatches, distance learning etc.

Native Ads

Native advertising is a type of advertising that matches the form and function of the platform upon which it appears.

It is hard for consumers to distinguish between content and native ads.

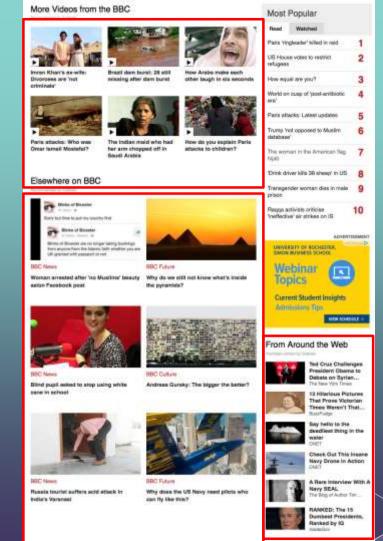

Native Ads

Advertisers face a trade-off between ad clicks and brand recognition.

Publishers need to strike a balance between ad clicks and the platform's trustworthiness.

For policy makers, concerns that native advertising confuses customers prompted the U.S. Federal Trade Commission to issue guidelines for disclosing native ads.

The first native ad (I90I)

What Will Become of China? None can foresee the outcome of the quarrel between foreign powers over the division of China. It is interesting to watch the going to pieces of this ancient but unprogressive race. Many people in America are also going to pieces because of dyspepsia, constipation, blood, liver and stomach diseases. We are living ico fast, but strength, vigor and good health can be retained if we keep off and cure the above diseases with Hostetter's Stomach Bitters.

Targeting based on simple rules

Geo-targeting Target by country, state, city, IP address

OS / Browser / Devices Segment based on technology

Day and time Specify display times to the minute

Discussion

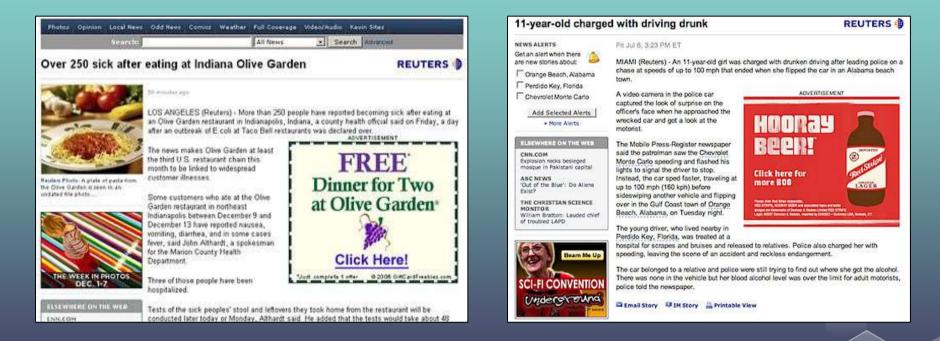

In addition to these simple targeting rules (geo-targeting, OS / browser / devices, day and time), which other targeting rules can you think of?

Contextual targeting Ads displayed based on content of web site

Contextual Targeting

Google display network offer two options for contextual targeting (AdWords Help 2017)

Keyword targeting: Choose words or phrases related to your product or service so Google can automatically target your ads to relevant websites on the Google Display Network that your customers visit (this is known as automatic placements).

Topic targeting: Target your ad to multiple pages about specific topics at once. Topic targeting lets you reach a broad range of pages on the Display Network.

Contextual targeting

Ads displayed based on content of web site

Behavioral targeting

Delivering relevant messages to audiences based on interests defined by recency and frequency of site navigation behaviors (web sites visited, search queries made, etc).

Contextual targeting

Ads displayed based on content of web site

Behavioral targeting

Delivering relevant messages to audiences based on interests defined by recency and frequency of site navigation behaviors (web sites visited, search queries made, etc).

Retargeting/Remarketing

Online ad is shown to a user who searched for (or saw) a particular kind of content. Based on past sites a user has visited

Customize ads for different retargeting segments

Price can also be targeted

Firms offer different consumers different prices based on their personal situations (e.g., geolocation, search history, purchase history).

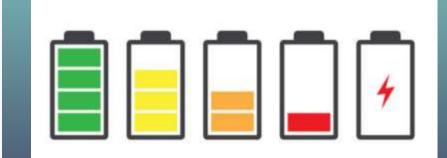

Do you use a MacBook or a PC?

Mac vs. PC

The Wall Street Journal investigated claims that Orbitz, a popular online travel agency, was showing higher prices for hotel rooms to Mac users compared to those who used a Windows PC.

Uber charges you higher prices when your battery is low, because it knows you cannot afford to wait!

Display has the largest share >50% of digital ad spending

How are Display Ads Bought & Sold?

The Basic Idea

Display ads are mainly sold in one of two ways

Direct buying from publishers

Bulk ad purchase that specifies the price and quantity, as well as the time frame and targeting criteria Premium Space Guaranteed contract Future market

Display ads are mainly sold in one of two ways

Direct buying from publishers

Bulk ad purchase that specifies the price and quantity, as well as the time frame and targeting criteria Premium Space Guaranteed contract Future market

2) Real-time bidding (RTB) through Ad Exchange

A platform running an auction to determine which advertiser buys an individual impression in real time (~100 milliseconds) Remnant space Non-guaranteed Spot market

Direct Buying from Publishers

"200,000 impressions to US users on the New York Time's finance related pages in July"

"All impressions on the EPSN homepage on Sept 21"

"300,000 impressions on Yahoo! to a retailer's existing customers in April"

Question

Among the major social media platforms (Facebook, Instagram, Twitter, LinkedIn, Pinterest), which one charges the highest for display ad (i.e., charges the highest CPM)?

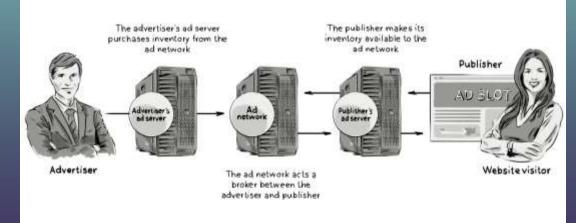

Cost-per-Click vs. CPM

Facebook Ads	\$1.35	\$8.60
Instagram Ads	\$3.56	\$8.96
Twitter Ads	\$0.38	\$6.46
LinkedIn Ads	\$5.26	\$6.59
Pinterest Ads	\$1.50	\$30

Ad Networks

Ad networks purchase remnant inventory across many publishers and resell to advertisers at a premium.

An essential vehicle for monetizing the Long Tail of the Internet. Provide small and mid-sized online publishers with more advertising revenues.

Ad Networks: Issues

Many <u>ad networks</u> with competing business models.

Lack of transparency.

Fixed CPM — all impressions cost the same regardless of value.

Need efficiency!

Ad Exchange

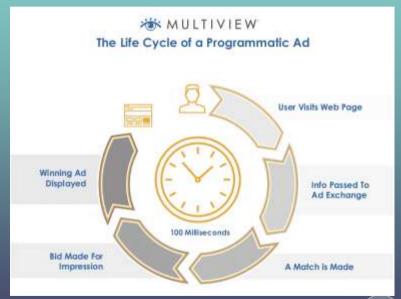

Real-Time Bidding (RTB)

Ad exchanges run auctions to determine which advertisers buys an individual impression in real time (<0.1 seconds)

Real Time Bidders bid on individual impressions in real time as they arise using computer algorithms ("programmatic buying")

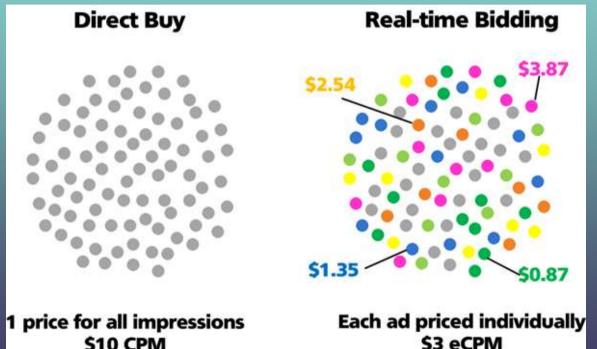

Usually second-price auction.

The Rise of Programmatic Advertising

Direct-Buy vs. RTB

CPM: cost per thousand impressions

\$10 CPM

\$3 eCPM

Ad Network and Ad Exchange

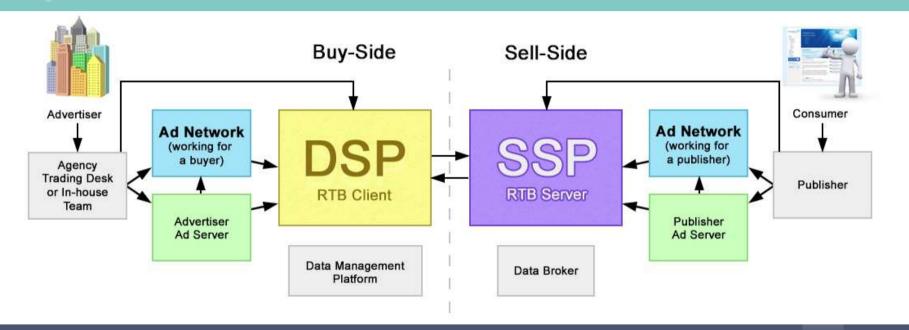

Players in the Space

Demand Side Platforms (DSPs) enable advertisers to
1) Use real-time bidding technology
2) Purchase inventory across multiple ad exchanges
3) Get analytics on campaign performance

Supply Side Platforms (SSP): Inventory management for publishers that allow them to access multiple ad exchanges per auction

The Ecosystem of display ad

Ad exchanges

What are the advantages and disadvantages of RTB?

Direct Buying

Advantages:

Guarantees ad message gets out (e.g., this weekend's movie release, retailer holding clearance sale) For branding advertisers, ensures brand-safe content

Disadvantages:

Old fashioned, high contracting costs

Salesforce & rate cards

Bar of entry

Hard to get premium spots on large publishers like the NYT

Real Time Bidding

Advantages

Allows for incredibly fine targeting & buying! Bid for the expected value of an impression (user, webpage, time) rather than an audience Enables large-scale retargeting and behavioral targeting across multiple publishers Reduces transaction costs Facilitates ad inventory from small publishers who can't afford a sales force

Disadvantages

Fraud, some loss of control (brand-safe content & ads) Many players take a 'cut' in complex ecosystem

Takeaways

Online display advertising continues to grow. Why? Consumers shifting time online Increasingly to mobile Online ads market minimizes transaction cost Market is complex but brings together advertisers & publishers like never before

Content Marketing

Content Marketing

Content marketing is the process of creating high-quality, valuable content to attract, inform, and engage an audience, while also promoting the brand itself.

Content marketing principles directly apply to SEO, display ads, social media campaigns, and can be more broadly applied.

Why content marketing?

Reputation: establish self as a thought leader in your industry.

Search: Prospects & customers find your answers to their questions online.

Reach: Long run benefit of improving reach at lower cost with library of great content.

Social media: Create value for customers to foster intimacy & retention.

Content marketing rests on...

Research & planning

Know your objective & establish Key Performance Indicator (KPI)
Know your audience Know your topic
Content creation Articles, images, infographics, videos, etc.
Content diffusion Paid & organic impressions via social, search Complete the loop: Track KPI & update best content

Content research example

Persona Marketing

Personas: The foundation of content marketing

Personas are a method of market segmentation wherein we collect a combination of qualitative and quantitative data to build archetypes of the members of our target audience

2 components:

Segment elements (demographics, needs, objections) Humanizing elements (photo, name, personal details) Why create personas?

Foster customer-centrism

What topics, medium, content depth, tone are relevant? Is content ratio in line with importance of each persona? Remind us that we are 'weird': our customer is different3-6 personas is ideal

Segmentation elements of personas

Demographics: geographic location, age, gender, income and (possibly) ethnicity.

Lifestyle:

For B2Bs: What kind of company do they work for? Job title/area of responsibility? For B2Cs: What kind of car do they drive? What do they do for fun?

Goals: What motivates them? Do they want to look better?

Segmentation elements of personas

Pain Points

What challenges do they face and how does that make them feel? How can you help overcome challenges or resolve problems to make their daily life or workday better?

Information Sources

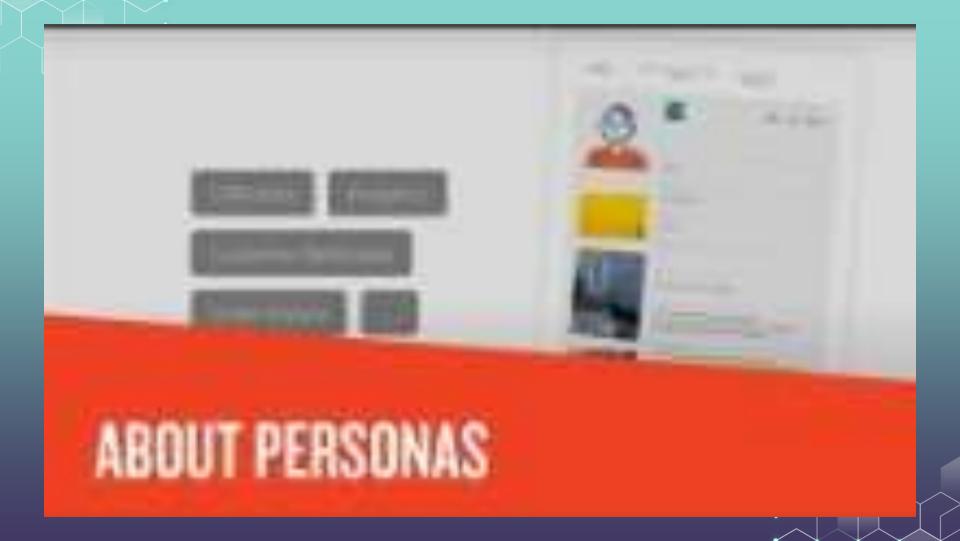

Do they search online? Read magazines or newspapers? Talk to people in person?

Humanizing elements of personas

Humanizing elements: Name & photo Customer may be different (e.g., gender, race, ethnicity) than you Hobbies Add real quotes from customer interview Why? Create empathy for customers Not 'extraneous' information: Only include elements that are relevant to customer identity Do we care if persona owns a dog? Yes, for pet clients (and

possibly travel). No, for most B2B clients.

Steps to creating a persona (part I)

1. Define your goal (e.g., sales, leads, social engagement)

2. Brainstorm hypotheses for:

Needs: Jot down objection, need, desired experience for any consumer

Attributes

Demographics: Age, gender, location, education, family, job title

Psychographics: Values & goals

Steps to creating a persona (part II)

3. Validate hypotheses with research

Interviews (existing & prospective customers, salespeople) Social listening (who follows you? what are they saying?) Hootsuite <u>https://moz.com/followerwonk/</u> Click <u>here</u> for an example https://klear.com/ Site analytics (e.g., Google Analytics) Traditional market research (e.g., surveys) 4. Build Personas: Combine validated hypotheses into 3-6 personas

DEMOGRAPHIC information:

. Age 46

.

.

- \$103,000 annual salary .
- . **BSN from UC Davis**
- MHA from Walden University (online degree)
- Married, two kids

Her VALUES AND GOALS:

organization and team

Attends church regularly

Worked in a large hospital system in CA after . nursing school

Son is a junior in high school and her daughter

prioritizing their finances to pay for college

Strong advocate for work-life balance in the

office but often works several hours in the

Encourages her staff to grow professionally

evening except for Friday and Saturday

· Prides herself on staying on top of emails and

will be a freshman next year: family

being responsive to all levels of her

THE PROBLEMS she has that IHI solves:

- "I need to balance cost cutting with maintaining quality and it's very complex."
- "Getting adoption of best practices is slow and not uniform."
- "I would love to be seen as more of a 'goto' leader within the larger organization."

ONE DAY in the life:

- Attends lots of face-to-face meetings
- Conducts office hours in ICU to give nurses and physicians time with her during the week.
- Handles a significant amount of paperwork related to regulation and compliance
- Has to be "on call" for scheduling and staffing issues at any hour of the day

Her main INFO SOURCES and WATERING HOLES:

- . SCCM enewsletter
- . ICU Director magazine
- . Office hours in departments
- . Hospital cafeteria
- After work socialization with department staff on a monthly basis
- Informal chats with former colleagues in CA • hospital system
- IHI Quality Innovators LinkedIn group. Hasn't posted yet; looks through ICU-relevant posts.
- . Member of AACN

Her most COMMON OBJECTIONS to IHI's products or services:

- Needs cost cutting guidance; doesn't know if Bedside to Balance Sheet is for her
- · Wants more content on culture change that could enhance process improvements
- Needs more material on how to get senior leadership behind her efforts; mobility in the ICU was treated as an experiment in the eyes of the VP of Patient Care, not a way forward.
- RNs only get \$500 a year in pro. development funds for non-degree programs; puts IHI content out of reach for her staff.

Persona example: Institute for Health Improvement (provides education to health practitioners)

THE EXPERIENCE SHE WANTS when seeking out IHI products or services:

- Wants to be able to read comments and feedback on the IHI programs in the way that she reads Yelp reviews of restaurants
- Would like to conduct a "chat" when she is . deciding whether or not to sign up for a program
- Wants to be recognized as a "fan" of IHI even . if her attendance level is not what we consider high. She was an enthusiastic OS participant when she got her MHA in 2009.

Diane Director, BSN, MHA

Director of Critical Care at Terre Haute Regional Hospital in Terre Haute, IN

Their ROLE AND LEVEL SENIORITY in detail:

- Reports to VP of Patient Care Services.
- Administrative responsibilities for a 32 bed ICU unit, 35 bed CVICU unit, and 4 cardiac inpatient units.
- Has budgeting power for 300 FTE staff ICU

IHI Areas of Focus that she would be interested in: Quality, Cost, Value / Patient Safety IHI Rings she would engage in (by %): Innovate (5%), Demonstrate Results (15%), Build Capability (75%), Disseminate Knowledge (5%) IHI programs she has attended/resources used: OS courses, Rethinking Critical Care seminar, Survey Design W+A, WIHI broadcasts on ICU subject matter

Kraft Mac & Cheese: Thumbnail persona

Julia

Woman, age 33 in Des Moines, Iowa Busy mother of 2 boys ages 9 and 13 Divorced, earning \$40K

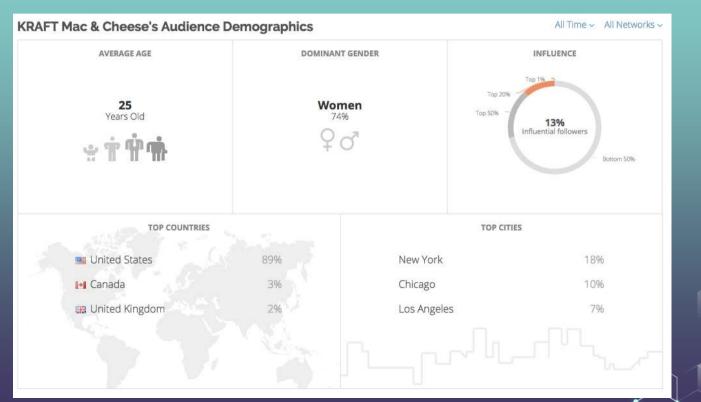

Values & Goals: Support academically successful & physically active boys Needs: no-fuss, budget meals for young children

Objections: nutritional value of mac & cheese

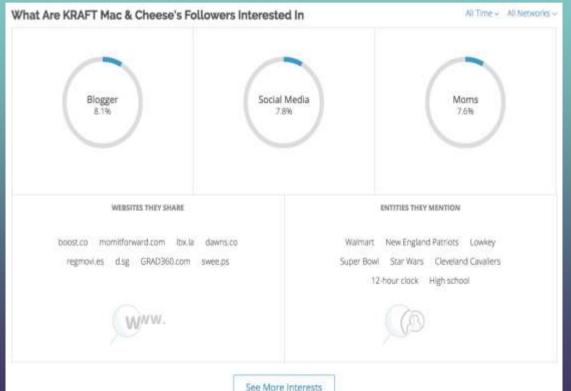

Experience wanted: quick meal prep and variety

Somewhat active on Facebook & Pinterest

Klear.com confirms that our (Twitter) audience tilts young & female

Klear.com's analysis of follower interests confirms 'motherhood' as important

Content Creation

Facebook dominates social media advertising market

Why going beyond organic?

Organic reach: free distribution of page posts to fans.

Decline of organic reach on Facebook (16% in 2012, 6% in 2014, 2% in 2018) Competition from larger social network & greater sharing.

Buying Facebook ads: define target segment & get the reach/cost tradeoff

Click and Like Fraud

QUESTION

Why do people buy fake clicks/likes?

Click and Like Fraud

Publishers profit from clicks and likes, and they have incentive to engage in click and like fraud.

Your competitor may create fake clicks and likes on your ad to waste your advertising budget.

The competitor of your publisher may create fake clicks and likes so that you may terminate the relationship with your publisher.

Click and Like Fraud

Like farmers pay people in developing world Remember: Fraud is everywhere (click, view, etc.) But, Like fraud creates a lasting distortion (until the offending user is caught)

Worse, to avoid detection, like farm users will 'like' pages that are not buying fake likes Like farm users hard to detect & removing real users destroys their user experience

Course Project

Choose a company/brand and analyze its DM strategy, including:

Its website

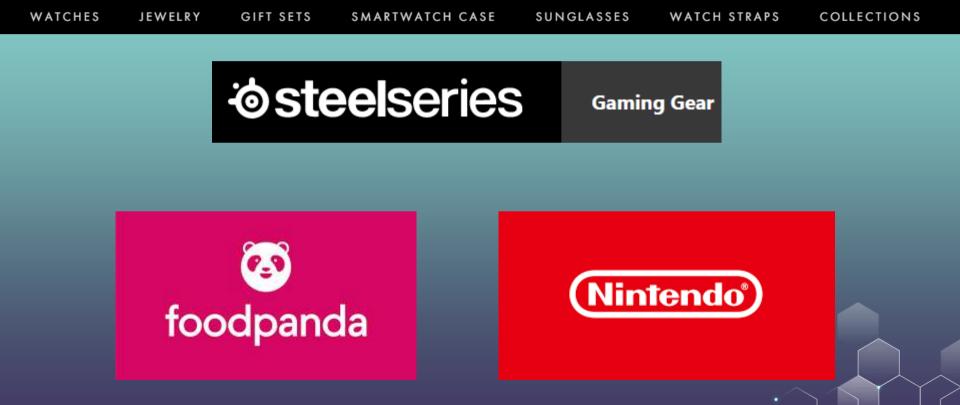

Online sentiment (How users talk about the brand online? E.g., user reviews on platforms such as TripAdvisor/Amazon; online discussions on platforms such as Twitter/FB).

Is the company's official social media accounts (e.g., Twitter/IG/FB/YouTube) well managed?

Competitor Analysis and Consumer Analysis

DANIEL WELLINGTON

Course Project

Get your presentation ready by Nov 24 (Class B) or Nov 27 (Class A).The order of presentation will be drawn randomly.Submit your project report by Nov 26 (Class B) and Nov 29 (Class A).
